The information is presented for Klarna Bank AB (publ).

¹Klarna's results are reported in SEK. To arrive at USD values, the average exchange rates for 2020 and 2021 have been used; 1 USD equals approximately 9.2 SEK for full year 2020, and 1 USD equals approximately 8.6 SEK for full year 2021. All growth figures are based on SEK results figures.

²Total monetary value of sold products and services through Klarna over a given period of time.

Accelerating consumer acquisition and adoption...

... across demographics as consumers seek sustainable forms of credit.

Indexed Global Active Users (Quarterly)

Consumers are shifting their spend to Klarna.

Purchase Frequency Growth Index

Losses at all time low.

If we had the same amount of volume from the same markets in 2021 as we did in 2019, then our losses would be over **30% lower**². The increase in absolute terms of our credit losses comes from our successful growth in new customers and new markets.

Credit losses USDbn¹

¹ Klarna's results are reported in SEK. To arrive at USD values, the average exchange rates for 2019 and 2021 have been used; 1 USD equals approximately 9.5 SEK for full year 2019, and 1 USD equals approximately 8.6 SEK for full year 2021.
² Credit losses comparison between 2019 actuals and "2019 at 2021 loss rates", where the latter has been calculated applying, at country level, 2021 credit loss rates to 2019 merchandise volume. Volume growth impacts (~100m and ~300m) calculated applying, at country level, 2021 credit loss rates to the 2019-2021 volume growth.

Losses are a direct result of our expansion and the increased volume of new consumers, rather than a deterioration of the portfolio.

Sustainability.

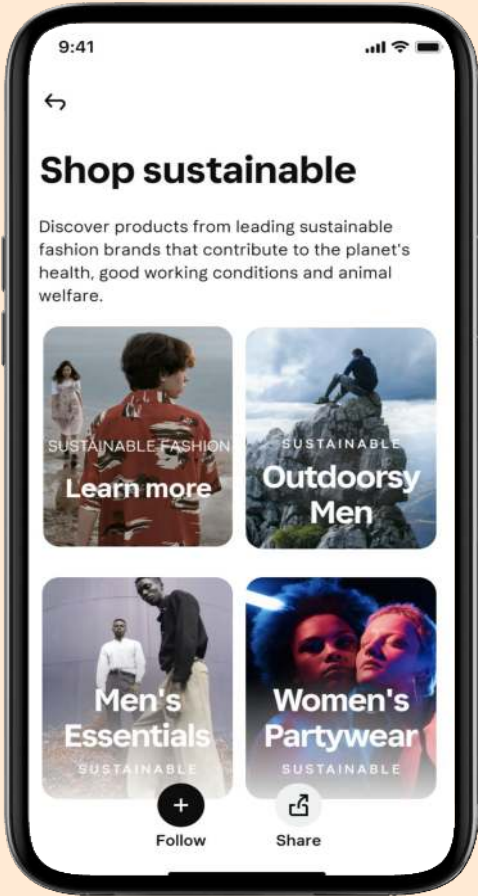

In 2021 we pursued 3 big ideas on how we can help the world become more sustainable.

Help consumers to live up to their values.

Offer consumers CO2 insights for all shopping purchases.

Curated collections to promote sustainable brands and products.

Launched **Give One** - our promise to donate 1% of all funding rounds to help combat climate change and the loss of biodiversity. Today **we have donated over USD 16m**, which is just the start.

We make annual financial contributions to high-impact climate projects through our **Climate Transformation Fund**. In 2021, **we invested more than USD 1m in 11 projects** through our Climate Transformation Fund.

Our sustainability partner, Milkywire has enabled Klarna consumers to **donate over USD 1.6m to Give One causes** through our donation gateway at the end of checkout.

Launch of a **CO2 emissions tracker for our 100m consumers** to track their emissions based on their shopping through Klarna.

Launch of Sustainable Collections in collaboration with Good On You, **the world's leading sustainability rating platform for fashion brands** to help consumers find more sustainable brands.

A photograph of three men in suits. The man in the center is wearing a teal double-breasted suit and a matching turtleneck sweater. He has his right hand on his chest, wearing a ring with a purple gemstone. The man to his right is wearing a dark green double-breasted suit and a matching polo shirt. They are holding hands. The man on the left is partially visible, wearing a light green suit and a watch. The background is dark and out of focus.

Thank you.
